Letter to the residents

I'd like to inform you of up coming road work to be done around or near your home. We will be doing sidewalk approaches on many corners to make them ADA complainant in the areas listed below starting Sept 1, followed by milling and paving of roads starting on the 8th or 9th due to possible weather change and running approximately 2 ½ weeks.

We will be milling and paving-
Tyre Ave.
Porter Street.
Boston Ave.
Chapin Street.
Black Brook Road from the 90, heading North a short distance.
East Bayard Street from Jay Street to past the cemetery heading East.
Farron Road in the area of Peterman Road and Nobile Road intersection.

There will be some delays in traffic and delays in student drop-offs with the schools,
We are currently working with them to figure out the best way to work around to drop off areas for your children. We have also been in contact with all emergency services.

We would like to apologize in advance for any inconvenience this may cause anyone,
Any questions or complaints can be made to myself at 315-730-6863

Id like to thank you for your time.
Seneca falls Highway Superintendent
Jeremy Wendt
